STATINTL

Met with [] today to discuss selection procedures for the DDM&S Upward Mobility Program she is in the process of designing. The program will involve people with at least 2 years of Agency experience and will allow for progression at least from GS-5 to GS-9 and in some cases beyond that grade level. The following Offices will participate in the program: Logistics, Personnel, Training, Finance, Security and ~~Joint~~ Computer Support. The Office of Communications and the Office of Medical Services have not been included in the program since their structures do not lend themselves to upward mobility.

We discussed the possibility of using the Differential Aptitude Test in addition to the untimed measures used in the Professional Test Battery. Pat would also like me or another PSS representative to sit on the selection board. She envisions that each office will have one or two upward mobility positions to fill each year. The program will probably have ten to twelve people per year.

Pat will get back to me as the plans become more crystalized.
